## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Adam Volentine on 10/08/04.

The application has been amended as follows:

The title has been changed to read "A single type of semiconductor wafer cleaning apparatus".

In claim 1, line 16, claim 11, line 17, "diffusion" has been changed to read "dissolving".

In claims 26, 27, lines 4 and 5 have been deleted. In claim 26, line 10, and in claim 27, line 11, before "and", -----"de-ionized water supply means for supplying de-ionized water onto a wafer at a location outside said chamber when the wafer is mounted to the chuck, to thereby provide a layer of de-ionized water on the wafer;"----has been inserted.

2. Claims 1-18 and 26-27 are allowed.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Franz (JP 11-054472) discloses device for treating wafer like object, particularly silicon wafer. Matsukawa et al. (5,964,954) disclose double-sided substrate cleaning apparatus and cleaning method using the same. JP'472 or Matsukawa et al. do not disclose a single type of semiconductor wafer cleaning apparatus comprising de-ionized water supply means for supplying de-ionized water onto a wafer at a location outside a chamber when the wafer is mounted to the chuck, to thereby provide a layer of de-ionized water on the wafer as claimed.

4. The following is an examiner's statement of reasons for allowance:  
The prior art of record failed to teach a single type of semiconductor wafer cleaning apparatus comprising de-ionized water supply means for supplying de-ionized water onto a wafer at a location outside a gas guard defining a chamber when the wafer is mounted to a chuck, to thereby provide a layer of de-ionized water on the wafer as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
